Query Raised	Clarification
Procurement only 4 months, chassis availability etc takes time.	Suggestion accepted. Procurement Period should be 6 months.
Arbitration clause not valid is depriving successful bidder of legal rights.	Any dispute is not settle before the commissioner, as per the tender condition (G) settlement of dispute the arbitration should be allowed as per Arbitration and

	conciliation Act.
Escalation all commodities should be allowed monthly or at least quarterly as price rise is very steep and execution becomes difficult with base price.	Escalation will be given as per RBI Index for all commodities. For labour according to Minimum Wages Act.
Formula for change in tariff price should be subject to change in index. The change should be in respect to proceeding year.	
Escalation in price with respect to RBI normally doesn't take care of wages when wages ration is very high. Our case is more than 30% and RBI increase/decrease may not suffice hence any increase in labour min wages act, the same should be compensated.	
Fuel comprises of more than 20% hence an increase should effected as per the formula computed in tender with respect to corrigendum. There has to be minor alterations i.e. compactor does have average 2 & 4 (small and big). Accordingly model wise changes has to be made.	
Criteria of yearly 100 cr turnover against against CVC guidelines and liable for legal implications. Contract 8 yrs estimated is not more than 100 cr. Daily billing estimated at 2.85 L. EMD too high	5% security deposit of contract 8 years estimate has to pay by contractor in the form of bank guarantee of national/schedule banks.
Any additional taxes and services taxes or increase shall be billed to UMC.	Suggestion accepted.
To ensure justice to both parties Arbitration shall be allowed.	Any dispute is not settle before the commissioner, as per the tender condition (G) <u>settlement of dispute</u> the arbitration should be allowed as per Arbitration and concillation Act.
